The 3 sequences below are of the Ultimate, an actuator operated pillow lifter

These 3 however are of the Caspian, a bellows operated pillow lifter

CASPIAN Air powered Pillow Lifter

Improving quality of life

Caspian:

An air operated system with many user friendly qualities. Lightweight, durable and stable. On a double bed it allows one person to be lifted without disturbing the partner. With many user friendly qualities, easy to clean, no fitting required. Why not take your 'good nights sleep' away with you in the boot of the car.

Specifications:
