

NEW!

### AQUATEC 90000

- ... Available with and without armrests, in three different seat heights: 2 cm, 6 cm or 10 cm
- ... Easy and quick assembly without tools
- ... Ergonomic fold-away armrests for additional support when sitting down or getting up
- ... Complete new armrest design: can be folded even on wall-mounted toilets
- ... When needed, only one armrest can be used
- ... Stable assembly on toilet bowl for a secure seating position
- ... Lid and seat can be removed from base plate without any tools due to an innovative clip system
- ... Clip system is a firm part of the toilet seat raiser – cannot get lost
- ... Seat can be set in forward-sloping position using an optional accessory
- ... Smooth surfaces and floating contours allow an easy cleaning
- ... Rust-proof as all parts (also the armrests) are made of plastics
- ... Exceptionally high load capacity: 150 kg!
- ... Low weight
