

Supa Support

The Benefits

Speed Plastics' new Supa Support pressure relief system minimises cross infection and hygiene problems which have recently become major issues facing Health Service providers across Europe. The use of waterproof materials combined with welded seams makes Supa Support impermeable to blood and urine etc. and offers complete protection of the mattress / cushion against fluid ingress and consequent deterioration of the core.

- ✚ Breathable
- ✚ Maintains its shape
- ✚ Suitable for wheelchairs and domestic seating
